RE:

September 29, 1969

Mr. A. W. Hook, Manager  
Environmental Control  
Anaconda Aluminum Company  
Columbia Falls, Montana 59912

Dear Warren:

Enclosed, find a tabulation of vegetation samples taken in the Columbia Falls area from 1963 to the present. A check (✓) indicates that a sample was obtained, processed and stored for future analysis. Bernie has also received a copy of this tabulation.

Don Ryan will be at Columbia Falls, October 6 for vegetation sampling. He will contact you to see what additional sample points you might want to add at this time.

I will be ready to meet with you anytime that is mutually convenient, preferably towards the end of October.

Sincerely,

*Walter Unger*  
Walter H. Unger
